

## Media Marketing Online launches comparison insurance site

*www.moneydealz.com is a website designed to provide users a benefit of online insurance in every area to the online users in UK. It will also soon launch its online financial service for the same.*

New Bombay, Maharashtra, IND, 2006-07-17 13:52:04 (IndiaPRwire.com)

Media Marketing Online; an organization that offers services on online marketing, announces the launch of its newest publishing website, "www.moneydealz.com", on online insurance and finance comparison and affiliate marketing for the UK market. This website helps potential customers choose, compare and ultimately buy the required policies/ insurance products / or any product on this website.

www.moneydealz.com has been designed to enable the end users to compare insurance online, as well as giving them all the information they require to get the most suitable policy possible, and in the least possible time. www.moneydealz.com have sorted the insurance deals headed under various categories so as to make it easier and simpler for the users to browse the site and make buying online much less of a chore, and more of a pleasure.

The users can browse through the network of sites and compare their own quotes with that of the company and buy the insurance from the company of their choice. After this, they can go to direct link of the insurance provider straight from www.moneydealz.com where they fill out one quick and easy online form.

Nearly 90% of the people find a website through search engines. Search Engines, today, drive more than half of online purchases. www.moneydealz.com has a SEO backing that helps its customers get maximum search engine coverage. Through this way the organizations spend less on marketing and gain through technology driven SEO.

www.moneydealz.com also offers the services of advertisements and promotions to their clients so as to develop a profitable venture for all. Promotions and advertisements help these companies target and attract maximum of their potential buyers and get the best mileage possible.

www.moneydealz.com will also be soon launching their online finance comparison where people can compare different financial schemes offered by the companies for credit cards, banking, investments, loans, mortgage, business finance and many more similar areas.
