Singapore Marriott Hotel has proudly unveiled its sleek new Executive Lounge following a complete renovation and expansion.

Boasting a brand new interior, the refurbished Lounge beckons with a distinct contemporary design characterised by chic clean lines. Exuding a cosy warmth from a pleasant colour palette choice of cream and dark brown, the well-complemented polished marble flooring, soft plush carpets and brand new furnishings lends an even more elegant and soothing touch to the entire Lounge. Moreover, the thoughtful addition of two 42-inch LCD screen televisions gives guests access to the latest news and events with the benefits of up-to-date technology. The enhanced spatial comfort is certainly welcoming as seating capacity has been increased to cater to more guests, due to the Lounge's popular demand.

Located on the 27th floor, the Executive Lounge offers impressive panoramic views over the city's bustling shopping and entertainment district, and is a perfect respite for the busy business traveller.

Open daily from 6.00am until midnight, the experienced team of Lounge hosts offer full concierge services, while ensuring guests enough exclusivity to make their stay more comfortable and effective.

In addition to increasing the variety of food and beverage offerings in the Lounge, a new and thoughtful 'Grab and Go' concept has been introduced for busy business guests on the run, which is proving to be very popular. Some of these include healthy hand fruits such as oranges, apples and bananas, preserved fruits like mango, prunes and apricots, packet chips, as well as convenient canned and bottled drinks.

### **Executive Room Benefits**
