

Genius to Showcase Numerous Innovations at Computex2007, Taipei

The product in various categories including input device, Audio, Image, gaming are showcased at Computex 2007 in Hall 1, Booth C410.

New Delhi, Delhi, IND, 2007-06-05 10:40:28 (IndiaPRwire.com)

Taiwan based Genius, an IT and consumer electronics brand across the globe proudly present its innovative technology with live demonstrations. The product in various categories including input device, Audio, Image, gaming are showcased at Computex 2007 in Hall 1, Booth C410.

Laser Mouse: Flip to Turbo Scroll with OPTO-Wheel Invention

One of the latest revolutionary mouse devices from Genius is the Traveler 515 Laser. It uses the latest in optical technology-Unique Flip to Turbo Scroll. With the Opto-Wheel Invention, an optical sensor replaces the wheel and features a comfortable touch scroll Panel. With Vista Flip 3D and Smart IE search hot keys, you get more satisfaction in an ultra-efficient device.

Genius is showing a slim turbo scroll laser mouse for Vista-Traveler 525 Laser, which has the same function as Traveler 515 Laser but features a slim shape for notebook users.

The company is also demonstrating the world's first laser mouse that incorporates nano-tech coating, the Traveler 315 Laser. This coating prevents any common bacteria from existing on the mouse surface, thereby reducing the chance of getting any infections.

Webcam for security, Vista

The Pan-Tilt IP Cam Secure331TR allows you to rotate its multi-axis to almost any viewing angle (Horizontal:300 :Vertical:120). It is also ideal to use any time of the day as it has night vision infrared LEDs. All IPCam series can be used as home security just by setting up the IPO Surveillance software.

With the new Vista capable webcams you can make live video calls using VOIP. SLIM 1322 AF model cam has an optical auto-focus lens and provides Mega-Pixel High-Definition video. Similarly, Look321T uses a new generation of Lens technology and Auto-tracking function for any home security environment.

Keyboards:

All of Genius keyboard products have optimal performance and are easy to use. The SlimStar 820 Solargizer (awarded with a 2007 CES innovation honour), the desktop combo, includes a wireless solar keyboard and a power saving laser mouse. The solar keyboard was designed to transform a light source into keyboard operational power.

Genius is also introducing the KB380 Multi-Function keyboard with Internet phone and KB330 with silent soft touch key caps. The numeric key pad series features full size keys for convenience and fast data input.

iPod Speakers, BT Speakers & Headsets:

For iPodholics, Genius announces iPod docking speakers-iTempo series models-iTempo150, iTempo350, iTempo800. All three models come with different docking inserts which are suitable for all iPods. Equipped with Bluetooth device functions, iTempo800BT speakers and BT-03A, BT-02N headsets, which support A2DP within a 10 meter distance, will satisfy any mobile telecommunication professional's appetite.

Another new classical wood speakers series - SP-HF355X, SPHF1250X, SP-HF2000X, SW-HF2.1 1250, SW-HF5.1 4000 which gives you another choice when upgrading desktop music to a high quality wood sound performance.

Digital photo Frame:

Genius now presents numerous new models for its portable video product family: Digital Photo Frame devices with 3 Different size panel for any entertainment demand. For personal entertainment, 9-in-1 PMP, super slim 7-in-1 DSC, 8-in-1 stabilization and motion detect function DV will be demonstrated at the Genius booth.

PC Gaming:

Genius introduces numerous gaming devices for those who play games regularly. The most powerful game controllers for PC games are the Grandias 12V game pad with 3-level turbo and macro function, Speed Wheel RVFF racing wheels features vibration force-feedback. Gaming peripheral products like the Ergo 555 Agma 3200dpi laser device and LuxdeMate525 gaming keyboard with 26 programmable keys are designed for true gamers. For games that attach importance to audio, we recommend the SW-V2.a 1255 speakers and HS-02U headsets so you can upgrade your gaming like.

Welcoming to Hall 1, BoothC410, Computex2007, Sandeep Ramani, Country Manager, KYE Systems (India), says, 'Genius is one of those few brands worldwide, which is recognized as a technology leader. The product showcased by Genius in Computex2007 speaks tons about our capability to innovate. Our objective is to bring maximum comfort to the users. By participating in Computex, we feel we can demonstrate our capabilities to the whole world as the event is one of the large tech-congregations worldwide.'

- END -
