

BMG India announces, IEMA accredited, ISO 14001:2004 Lead Auditors Training in Mumbai.

ISO 14001 (Environment Management System) assists organizations to be more eco-efficient, proactively manage their environmental impacts with the purpose to prevent pollution, conserve resources and continually improve. thus being more responsible to the global community. An effective and robust EMS can assist organizations in an integrated approach to economic growth, improved environmental performance and social welfare.

Mumbai, Maharashtra, IND, 2007-06-26 11:47:19 (IndiaPRwire.com)

Development, implementation and sustenance of a management system implementation requires organisational commitment and champions who can play a key role in the development, cascade and maintenance of the Environmental Management System (EMS). These champions need a comprehensive understanding of the standard. Do we have our Champions in place? Lead Auditors are the critical core of every implementation. They are champions, change agents and leaders, project

managers and problem solvers. Lead Auditors are involved in identifying and solving chronic issues that plague company Performance in the Safety, Health and environmental domain.
