Effective implementation of OH&S management system can assist organizations in economic growth, provision of safe and healthy work environment and exhibit social welfare and commitment, thus setting the path towards sustainable development.*

Mumbai, Maharashtra, IND, 2007-06-26 12:49:52 (IndiaPRwire.com)

OHSAS 18001 assists organizations to proactively and systematically manage their health and safety hazards / risks with the purpose to continually improve and be more responsible to its employees, environment and the global community. Effective implementation of OH&S management system can assist organizations in economic growth, provision of safe and healthy work environment and exhibit social welfare and commitment, thus setting the path towards sustainable development.

Development, implementation and sustenance of a management system requires organisational commitment and Champions who can play a key role in the development, cascade and maintenance of the Occupational Health and Safety Management System (OHSMS). These champions need a comprehensive understanding of the OHSMS. Do we have our Champions in place? Lead Auditors are the critical core of every implementation. They are Champions, change agents and leaders, project managers and problem solvers. Lead Auditors are involved in identifying and solving chronic issues that plague company Performance in the Safety, Health and Environmental domain.

Breakthrough Management Group, India (BMG India) brings to you this course in association with British Standards Institute (BSI) which will help you conduct 1st, 2nd, and 3rd party audits as per the OHSAS 18001:2007 requirements.

This course is designed to provide a complete perspective on developing, implementing and auditing an OHSMS. It provides a clause wise understanding on OHSAS 18001:2007 and its interpretation. It also provides details on identification and evaluation of hazards and risks; discusses the loss causation model; applicable environmental and factory legislation and its interpretation including compliance. Further, this course provides a complete understanding on planning, conducting and closing audits effectively.

This Certification Program is focused on building competent OHSAS Implementers and Auditors
