

Director of Hyderabad based Information Technology Firm Wins Outstanding Woman Entrepreneur of the Year Award

Hydus Technologies (India) Pvt, Ltd. Director, Indira Vishnampet Recognized for Exceptional Achievements

Hyderabad, AP, IND, 2007-09-07 07:57:46 (IndiaPRwire.com)

The Indo American Chamber of Commerce Greater Houston (<http://www.iaccgh.com>) awarded Indira Vishnampet, the CEO and Founder of Hydus, Inc.(Houston), Hydus Canada, Ltd (Vancouver) and Hydus Technologies (India) Pvt, Ltd (Hyderabad, India) (<http://www.hydus.com>) -- a solutions provider in enterprise integrations and enterprise data management -- the "Outstanding Woman Entrepreneur of the Year" award for her professional achievements.

Indira Vishnampet grew Hydus, a multinational corporation into a multi- million dollar firm within three years of its inception. Vishnampet's adherence to customer satisfaction and ability to clearly demonstrate clients' return on investment (ROI) resulted in growth of over 600 percent in the last three years.

Since 2000, Indira Vishnampet has lead Hydus as a "niche-player" in the market by specializing in delivering cost-effective Service-Oriented Architecture (SOA) based solutions. Partnering with TIBCO, IBM, HP, and Microsoft, Hydus provides clients with innovative solutions to achieve SOA and Business Process Management (BPM) success.

Vishnampet's achievements include two other start-up companies: a check collection company, which was launched by Vishnampet during her college years and helped fund her education; and a real estate investment company that owns and operates commercial real estate.

- END -

About Hydus, Inc.

Hydus, Inc. is a multinational corporation that provides strategic IT solutions in enterprise applications integration (EAI), composite business applications and information architecture. Hydus consistently improves customers' productivity by integrating existing systems with innovative solutions, providing high-quality services, and ongoing support.

Hydus has successfully implemented SOA-based projects for Fortune 500 companies since 2000. With delivery centers in Houston (US), Vancouver (Canada) and Hyderabad (India), Hydus provides the technology, services and people to deliver quality, cost-effective, and timely enterprise solutions.

Hydus' strategic product offerings include: Hydus Integration Services (HIS), a comprehensive group of integration services that provides support and functionality for all integrations; Hydus Workflow Framework (HWF), framework and reusable services for dynamic, rich and reusable workflow solutions; and Hi5, a robust methodology that addresses all aspects of enterprise information and data management.

Hydus Master Data Management (MDM) solutions leverage the synergies between SOA, enterprise integration, and data management strategies to facilitate "single truth" and "single source of truth."
