

Fibre2fashion launched unique marketplace for Technical Textiles Industry

Fibre2fashion is largest textile industry b2b marketplace and web portals, has recently launch section Technical Textiles, Find Best business resources for world Technical Textiles industries. Find Technical Textiles directory, products, Articles, News, Jobs Events and much more.

Ahmedabad, Gujarat, IND, 2007-10-03 10:50:08 (IndiaPRwire.com)

One of the faster growing sectors, Technical Textiles is today contributing in the development of medical, protective and smart textiles. This 'sunrise' sector comprising technical textiles and industrial non-woven is pegged at \$126billion in value term by 2010, according to industry experts.

Internet business solutions provider **Fibre2fashion.com** serves the global apparels, textiles, fashions and retail industries. For the past over seven years, this portal has stimulated and harnessed business environment offering news, articles and intelligent commercial information that has become the mainstay of over 1 million of its portal members and visitors, each month.

This newly launched and much in demand section like the others on Fibre2fashion.com will drive and attract industries within the sector to conduct business in a smart way.

Smart indeed! Just roll your cursor over Technical Textiles, and one will find a veritable goldmine of information in the form of neatly categorized Products, Articles, News, Jobs and Events sections.

Technical Textiles sub-sectors are covered are:

Agrotech, Mobiltech, Sporttech, Buildtech, Ropes, Indutech, Packtech, Protech, Clothtech, Cleaning, Medtech, Hometech, Geotech, Oekotech, Laundry

Adds a company official, 'Articles and News will power all information that is on display within the section. Besides, we are consolidating our formidable database encompassing this sector that will stimulate business environment over the net.'

Fibre2fashion commands a domineering presence over the internet and search engine presence in particular, in terms of comprehensively covering and offering business solutions for global apparel, textiles, fashion and retail industries, for the past seven years now.

Over the years, it has developed close relationship with leading industry associations, research organizations, Governments, companies, small and medium business and trading communities over the cyberspace.

Launching Technical Textiles section at Fibre2fashion.com just goes to show how internet and its entities will lead and revolutionize businesses upfront, in times to come.
