Leading Healthcare Informatics company Ashva Technologies today announced that they have successfully signed up strategic partners after a very prolific and fruitful RSNA 2007. Ashva announced that 2 OEMs and 2 Distributors have already signed up, and they will rebrand and sell applications provided by Ashva.

After visiting Ashva's booth at RSNA 2007, a number of OEMs and Distributors have shown serious interest in exploring a potential business relationship with Ashva. Ashva has carved a niche for itself with its feature rich low cost PACS components software.

Mohan Mysore CEO - Americas added 'Our strategy of providing software which enables our partners to go after the huge untapped entry level market is paying off! It is a win-win situation for both end users and solution providers.'

- END -

About Ashva Technologies:

In the field of Medical Technology, where cutting-edge solutions matter, Ashva has constantly strived to **manage knowledge** in the most efficient ways - developing functionality driven, cost-effective solutions for healthcare. Ashva is one of the leading providers of PACS and PACS components like DICOM disc distribution, DICOM converter, DICOM 2D & 3D viewer, etc. in Asia. In addition Ashva also offers image archiving and distribution solution for Ultrasound and Endoscope equipments. Ashva Technologies has offices in USA, India and Malaysia.
