Noida, UP, IND, 2008-01-28 15:47:13 (IndiaPRwire.com)

Technologist turned entrepreneur, Tushar Bhatia, an IIT Delhi alumnus, and chief architect and designer of EmpXtrack (www.empxtrack.com) will be visiting Chicago area, United States (from 04 February to 09 February) to deliver consultation lectures on Talent Management and Performance Management practices and relevant technologies. Due to increasing trend of leveraging Human Resource using technology, experts like Tushar Bhatia are highly in demand. This is second visit of Tushar to United States in last 3 months.

During this visit he will be focusing mainly on 'How to introduce HR best practices in an organization using SaaS technology'. Tushar will speak to CEOs, HR Directors and HR Consultants on Performance Management, Talent Management, Human Resource Management and how they can be implemented in an organization to improve productivity and performance. 'The introduction of best practices not only improves the culture in the organization, it improves profitability and reduce losses.', says Tushar. HR consultants contact Tushar to help them in implementing Talent Management Suite - EmpXtrack, for their clients, which not only increase their profile but also become alternate source of revenue.

Note: If you are an HR Consultant/ CEO (in United States) and want to learn more about Talent Management from Tushar, and benefit from our special offers please write to gksharma@saigun.com for an appointment in US.

Quoting an example during one of his meetings he said, '**By merely optimizing the underutilized space say, consumed by under utilized conference halls and other utilities, big organizations can save millions during their business cycle.** However, this optimization can be done only with a software like EmpXtrack, which offers real time analytics for business decision making. And there are many more creative use of such softwares.'

Saigun technologies, a software group promoted by Tushar Bhatia, has developed a Human Resource and Talent management Suite called - EmpXtrack. It is a cost effective Human Resource and Talent management Suite that has 18 module to address various HR Management challenges. It helps full automation of HR and related processes and offers integration with various other systems.
