

4G Identity Solutions Names Tarvinder S. Sembhi as President

4G Identity Solutions is a world leader in developing and deploying Identity Management solutions. 4G's modular software provides an Identity Management platform that interoperates with multiple biometric devices, biometric algorithms, and demographic search engines. The platform allows 4G to integrate best of breed technologies and offer low cost, interoperable, secure, and scalable solutions. 4G also has a dedicated service team that specializes in installation, on-site training, and support. 4G's strengths are ideal for creating and deploying trusted, unique identity databases and then leveraging the databases to create multiple applications and programs for commercial applications as well as Citizen ID programs. 4G Identity Solutions is based in Hyderabad, India and is an independent subsidiary of Goldstone Technologies Limited

Hyderabad, Andhra Pradesh, IND, 2008-03-17 13:20:52 (IndiaPRwire.com)

4G Identity Solutions (formally 4G Informatics Pvt. Ltd) has announced that Tarvinder S. Sembhi has joined the executive team as President. Mr. Sembhi is a seasoned veteran of the biometrics and ID Management industry. His previous experience includes Vice President of Product Management and Business Development of Iridian Technologies Inc., USA where he was responsible for strategic roadmap for a product portfolio that received Frost & Sullivan's Technology Leadership Award. He also managed all of Iridian's strategic alliances with large, multinational corporations. He was part of the executive team that grew the start-up technology company to a company with a global deployment base and recognized leadership in the biometric industry.

At 4G Identity Solutions, Mr. Sembhi will be responsible for strategic product development, corporate branding and marketing, and streamlining operations. 'We are very excited to bring in someone of Tarvinder's breadth of experience in the ID management space,' stated Dr. Sreeni Tripuraneni, CEO & Managing Director of 4G Identity Solutions. 'The credibility and reputation he brings to 4G has already been very valuable in securing key accounts.'

4G Identity Solutions develops solutions for both, large corporate employee management applications as well as government Citizen ID applications. 'As corporations grow, the need to manage and provide security for large workforces is becoming apparent. In addition, government agencies are increasingly recognizing the solution for streamlining many of their entitlement, ID document, and public distribution processes lies in biometric enabled applications,' stated Tarvinder Sembhi. 'It's a very exciting time in the ID Management space in India and I look forward to working with the 4G team to provide solid solutions to this market.'

Mr. Sembhi has a Bachelor's of Science in Engineering from Penn State University and an MBA from Lehigh University both located in Pennsylvania, USA. Mr. Sembhi has also graduated from General Electric's prestigious Management Program and has held leadership roles with General Electric Company, Ford Motor Company, and Sarnoff Corporation in the past.
