

## Advancetech get new project from Taikisha

*Advancetech Engineering Pvt. Ltd. gets a new projects for fabrication & erection of paint shop.*

New Delhi, Delhi, IND, 2008-04-16 22:57:05 (IndiaPRwire.com)

Advancetech Engineering Pvt. Ltd. gets a new projects for fabrication & erection of paint shop of India Yamaha Motors Ltd. Greater Noida plant.

The paint shop is the beauty parlour of the car plant. Paint application is one of the most demanding aspects of automobile manufacturing. Not only does the paint coating protect the body surface, it also enhances visual appeal by adding color and gloss - important selling points.

Our Paint Shop Services Include:

Booths Designed to meet both NFPA-33 and OSHA requirements as a minimum. Our booths are constructed of heavy duty materials to withstand the rigors of the finishing area. Built of 18 gauge cold-rolled or galvanized panels with exterior flanges. Interior of booth is smooth to eliminate overspray catching areas. Available in filter-back, on-floor downdraft, or water curtain configurations to meet your exact specifications. Standard dimensions or custom layouts available to meet unique design and operation criteria.

Ovens Constructed to be energy efficient while providing maximum performance to properly process the product transported through the oven. Steam, hot water, or gas fired options are available to use your existing energy source. Gas trains are built to FM or RI specifications. Low or high temperature configurations are available including TGO, Blispheric, or Steam-operated ovens and high-temperature curing ovens. Designed for maximum energy efficiency while delivering significant energy cost savings.

Air Replacement Units Engineered to meet customer specifications. Whether a 20,000 CFM or 96,000 CFM unit is called for, we can manufacture the AMU using pre-designed configurations. Available in gas or steam fired configurations to meet your energy requirements. Gas trains are built to FM or IRI specifications. Units sized to match current or future needs. Depending on your space requirements, units can be designed for indoor or outdoor installation.
