

Receives Acquisition from EVOC International showcase in Defexpo India 2008

It is believed that our success in this exhibition will expand our market in southern Asia, and will bring us much confidence in the sales of global market

New Delhi, Delhi, CHN, 2008-04-23 14:01:48 (IndiaPRwire.com)

February 16-19, 2008, Defexpo India 2008 was held in New Delhi, India. There were a number of enterprises from over forty countries entered this exhibition. International business department of EVOC, together with Indian agent, appeared in this exhibition with professional image. In the stand with 18 square meters, EVOC displayed new products developed between 2007 and 2008, which received good reviews from the customers.

Acquisition from this exhibition, we have included several OEM Orders from Local leading Computer dealers, and it's more bright that it's a good time to launch Evoc's Technology and service all through India. and it's ready to offering:

OEM&ODM regarding- Slot CPU/SBC/Motherboard Chassis/Backplane/Power Supply Embedded Box PCs Compact PCI Platforms Network Computing PC/104 Boards HMI Mobile Rugged Computing COM Modules LCD Monitor

- END -

EVOC Intelligent Technology Co., Ltd., founded in 1993, is one of the TOP leaders of EIP (Embedded Intelligent Platform) manufacturers in China. EVOC has been offered publicly in stock exchange in Hong Kong (stock code: 8285) since 2003, and has the large base for production and R&D center in mainland.

EVOC focuses on industrial PC, single board computer, PC/104 board, HMI products, compact PCI, power supply, chassis and so on. The products are widely used in industrial automation, telecommunications, medical, transportation, energy, network, security, etc. EVOC also integrates the solutions of industries and applications, and deals with the ODM and OEM for customers. The long term cooperation partners of EVOC are Sinopec, HUAWEI, ZTE, Hisense, Foxconn, Han's laser, etc.

As the top professional leader of the EIP in China, EVOC has obtained ISO 9001:2000 and ISO 14001:2004 series certificates. At present, RoHS standard is being promoted fully in all process of stock, production and testing. In 2004, EVOC became the first member of ICA (Intel Communication Alliance) in Mainland China. At the same time, the "INTEL-EVOC Embedded Development Center" was established. EVOC are also the Gold-level member of Microsoft Windows Embedded Partner Program.

EVOC plays a significant role in Chinese EIP field. In the past 14 years, EVOC is always standing on the top of the industry, and leading the developing direction of embedded technology in China. So far, EVOC has established 23 branches in China, providing 24-hour technical support for customers. EVOC is ranked in 'Key Hi-tech Enterprise in TOP Development Plan of China'
