

QuEST appoints Dr. Madhusudhan B S as Vice President - India Operations

QuEST, a leading provider of outsourced engineering services and manufacturing, appointed Dr. Madhusudhan B S, as its Vice President - India Operations.

New Delhi, Delhi, IND, 2008-04-25 17:07:05 (IndiaPRwire.com)

QuEST, a leading provider of outsourced engineering services and manufacturing, appointed Dr. Madhusudhan B S, as its Vice President - India Operations.

As the Vice President of India operation in QuEST, Dr. Madhusudhan will look after the entire gamut of engineering operations in India. He is in charge of the overall delivery covering all the verticals namely aerospace, civil structures, industrial products, oil and gas, power generation and transportation.

Mr. Ajit Prabhu, Co-founder and CEO of QuEST, said, 'Dr. Madhusudhan B S brings impressive credentials as well as excellent experience and senior management maturity to our business. While complimenting the existing management team, he will also provide the strategic leadership that we need to capitalize on the incredible opportunities that we have ahead of us.'

Dr. Madhusudhan comes with an enriched background of Aerospace Engineering with over 20 years industry experience. Before joining QuEST, he worked at Infosys Technologies, Bangalore, where he was heading the aerospace and heavy engineering group. He was instrumental in building several capabilities in aero structures domain including advanced composites capability.

Prior to his stint with Infosys, he had worked at National Aerospace Laboratories (NAL), Altair Engineering, India and GE-JFWTC in Bangalore. He is a DAAD fellow, Member of AIAA and is a Peer Reviewer in Journal of Structures and Multidisciplinary Optimization.

Dr. Madhusudhan holds a Bachelors degree in Civil Engineering from BMS College of Engineering, Bangalore and M.Tech in Industrial Structures from National Institute of Technology, Surathkal along with a Ph.D. in Structural Optimization from Indian Institute of Technology, Chennai.

About QuEST

QuEST (Quality Engineering & Software Technologies) is a leading provider of outsourced engineering services and manufacturing. We provide support across the entire product life cycle from design and modeling through analysis, prototyping, automation, data documentation, manufacturing support, vendor management, and in-house precision machining. Through our Global Product Development framework leveraging our local presence and global reach, we enable companies in the aerospace, civil structures, industrial products, oil & gas, power generation, and transportation markets to cut product development costs, shorten lead times, extend capacity, and maximize engineering resources. QuEST employs over 1200 people and has delivery centers in India, USA, Japan and Italy, and a footprint in UK, Germany, and China. In FY07, the company reported revenues of \$34.4 million.
