Mumbai, Maharashtra, January 18, 2008 /[India PRwire](http://www.indiaprwire.com)/ -- ELROMA 2008, the 7th International Seminar on Electrical Rotating Machines has been scheduled on January 21 and January 22 by IEEMA to coincide with the ELECRAMA 2008 at the Renaissance Mumbai Hotel and Convention Centre in Mumbai. ELECRAMA, an International Exhibition happens to be the largest exhibition of power, electrical, and industrial electronics from India.

Held every four years, ELROMA continues to be a forum that shares information with a focus on Rotating Machines Technology in relation to perspectives, and trends. The focus on power, electrical, and industrial electronics from India continues with ELROMA and ELECRAMA being held with the objective to appreciate unfolding market and technological changes to enable industry, academia, and other interested groups to formulate appropriate responses.

Some industry participants include ABB, Alstom Industrial Products, BHEL, Crompton Greaves, Cummins Generator Technologies, ERDA, Elantas Beck India, Kirloskar Electric, Siemens, Von Roll, and WEG Energy.

Rotating machine manufacturers, service providers, consultants, researchers, raw material and machinery suppliers, and users can expect to benefit from this year's ELROMA with new product development, machine materials, manufacturing technology, conditioning monitoring and lifecycle management, international standards and certifications, and energy conservation being discussed at length over the two days.
