

GlobalOutlook enables BSNL to provide Hosted Exchange

GlobalOutlook, the foremost company in India to offer white label 'hosted' Microsoft Exchange and collaboration services is the infrastructure partner for BSNL's Managed Business Mail which is recently launched by the telecom giant as a step to move beyond the conventional e-mail and empower businesses with tools to increase productivity, mobility and collaboration at an affordable monthly fee. Microsoft, the existing principal partner of GlobalOutlook is the Marketing Support Partner in this collaboration.

Hyderabad, Andhra Pradesh, July 29, 2009 /[India PRwire](#)/ -- GlobalOutlook, the foremost company in India to offer white label 'hosted' Microsoft Exchange and collaboration services is the infrastructure partner for BSNL's Managed Business Mail which is recently launched by the telecom giant as a step to move beyond the conventional e-mail and empower businesses with tools to increase productivity, mobility and collaboration at an affordable monthly fee. Microsoft, the existing principal partner of GlobalOutlook is the Marketing Support Partner in this collaboration.

Enabling for BSNL:

- Hosted Exchange / Outlook2007 (HMC 4.0)
- Hosted Share point for the first time in India.
- Hosted Mobile push email & calendar - for Windows Mobile, iPhone, Nokia e series or any device with Active Sync.

As the infrastructure partner, GlobalOutlook is enabling BSNL to offer the latest version of Microsoft Exchange and collaboration services. BSNL as a service provider is in turn offering one stop services like Email, document storage/sharing and push email on mobiles to its end customers.

Mr. Dayakar Puskoor, Executive Chairman, GlobalOutlook said, " *We at GlobalOutlook are delighted with this partnership with BSNL, India's top ISP and leading GSM Mobile operator. This is a significant milestone that Global Outlook has reached and through BSNL we hope to reach out to a wide spectrum of audience. Global Outlook's offerings are of the highest quality and would essentially help any SME become more productive through integrated company communications.* "

The GlobalOutlook Solution will

- Allow midmarket companies through BSNL to adopt integrated company communication through Exchange 2007, without the high costs of an in-house deployment.
- Streamline document management and Information sharing and retrieval.
- Manage the entire environment which includes all hardware, software licenses with corporate grade service.
- Centralize company email lists, calendars, and also facilitate available time/day slots as per everyone's schedule.
- Enable a path to unified messaging with one email inbox for different types of messaging,
- Enable anytime, anywhere access for customers while providing 24/7 customer support with antispam/antivirus protection.
- Features include Push Email, Shared Calendar/Group Scheduling, Global Address Book, Tasks/Notes, Premium Anti Virus/Anti Spam, Mailbox storage upto 1GB, Backup/ Restore and so on.

BSNL Managed Business Mail enabled by GlobalOutlook which brings in all the above mentioned benefits is available to customers under different packages like Basic, Standard, Mobility and Mobility Blackberry with per month charges starting from Rs. 420 going upto Rs. 1610 exclusive of taxes.

Enterprises expect to focus on their core business and outsource non-core activities and in particular SMEs would like to use their limited funding and resources effectively, more so in the current global economic down slide. All such SMEs are looking for solutions based on SaaS model and now GlobalOutlook is enabling BSNL to provide the required solution.

Notes to Editor

About GlobalOutlook

GlobalOutlook offers Hosted Exchange and Collaboration tools for any Business. GlobalOutlook facilitates collaboration, usability, and information management. GlobalOutlook has developed its state-of-the-art White Label Partner Platform to enable partners/resellers to white label the entire service under their brand name without any manual intervention. This white label program is built entirely using latest Microsoft technology. The hosted Microsoft Exchange and Web servers are located in world-class datacenters, constantly managed by highly-experienced specialist technicians and engineers. GlobalOutlook delivers business email with 24x7 customer support through our Microsoft Certified staff. For more information, please visit globaloutlook.com
