

Hamdard launches Masturin, a 100% natural Health Restorative for Women

Hamdard (Wakf) Laboratories, India's leading Health & Wellness Company, today unveiled 'MASTURIN', a 100% natural health restorative for women. Masturin helps in the treatment of dysmenorrhea (painful menses), ailments of the ovaries and other related female disorders. Furthermore, Masturin helps in restoring the normal menstrual cycle if affected due to poor health or anemia. Developed on the natural principles of Unani system of medicine, Masturin acts as a revitalization tonic for females.

Noida, Uttar Pradesh, April 7, 2009 /[India PRwire](http://www.indiaprwire.com)/ -- Hamdard (Wakf) Laboratories, India's leading Health & Wellness Company, today unveiled 'MASTURIN', a 100% natural health restorative for women. Masturin helps in the treatment of dysmenorrhea (painful menses), ailments of the ovaries and other related female disorders. Furthermore, Masturin helps in restoring the normal menstrual cycle if affected due to poor health or anemia. Developed on the natural principles of Unani system of medicine, Masturin acts as a revitalization tonic for females.

The nutrient-rich herbs used in the product facilitate women to achieve high levels of hemoglobin and helps them stay healthy and enjoy life to the fullest. Its blood purifying action helps women to keep their skin glowing and supple.

Mr. Arshad Siddiqui, Chief Marketing Officer – Hamdard (Wakf) Laboratories said, “Stress, irregular eating habits, obesity, being underweight are some of the common reasons for women to have menses related disorders. This can be crippling for today's cosmopolitan woman who has to maintain a work-life balance. Masturin, made from time-tested herbs, supports the natural hormonal balance thereby restoring regular menstrual cycles. Since it is a natural formulation, women can avoid painkillers which may have undesirable side effects.”

Masturin is available at pharmacies across the country and is priced at Rs. 40 for 100 ml bottle and Rs.72 for the 200ml bottle.

Notes to Editor

About Hamdard (Wakf) Laboratories

Hamdard (Wakf) Laboratories, India's leading Health & Wellness Company, was set up in 1906 in the small by-lanes of the historic old Delhi. The company today is one of the largest OTC healthcare companies in India with over 600 OTC & ethical products including household brands like Rooh Afza, Safi, Cinkara, Roghan Badam Shirin. It boasts of one of the largest Unani GMP certified and ISO 9001 facilities in the world.

Hamdard has grown into an institution devoted to provide health to all through promotion and development of Unani. A premier pharmaceutical house with a nationalist inspiration and a total indigenous base, Hamdard stands as a mission committed to serve the benefit the society. Hamdard has been nurturing the lives of millions of people by building hospitals, universities and schools, and empowering the girl -child in India through its registered society Hamdard National Foundation, founded with the noble objective to disburse the profits earned by Hamdard (Wakf) Laboratories.
